## Trap-Neuter-Return Basics Seminar

The  
**Nobody's  
Cats** FOUNDATION

The York County SPCA has recently partnered with the Nobody's Cats Foundation to expand TNR efforts within York County!

The SPCA will be hosting a TNR expert from Nobody's Cats to give a 2-hour seminar on the steps and strategy needed to get started with TNR. The seminar provides step-by-step guidance for the TNR process, including tips and tricks from experienced mentors. First time attendees receive a binder of resources and are eligible for a voucher for a free TNR surgery at either the York County SPCA Spay/Neuter Clinic or the Nobody's Cats Foundation Surgery Clinic. We welcome members of the public who may have their own cat colonies, individuals who want to learn how to trap/transport, and anyone who simply wishes to help improve the lives of community cats!
