October 2, 2018

Dear York County Resident,

As York's regional leader in EMS service, White Rose Ambulance/Community LifeTeam is always prepared to help you in the event of an emergency.

To help area residents and businesses prepare for an emergency, we offer a membership program that allows you to avoid costs above and beyond what typical insurance will cover. While you will still receive our emergency ambulance service if you do not become a member, this program can help reduce your out-of-pocket costs during these difficult times.

White Rose Ambulance membership ran through June 30, 2018. In appreciation of our current White Rose Ambulance members, we are extending their membership through Dec. 31, 2018 at no additional cost. If you are not a member currently, but wish to join, please look for information about the 2019 membership drive in your mailbox in the next few weeks.

Although emergencies and their costs are unpredictable, our expert paramedics and medical technicians are always available to you 24 hours a day, seven days a week. Watch your mailbox for our 2019 membership information.

Yours in good health,

Barry Albertson, EMT-P, CACO
System Director, UPMC Pinnacle
Community LifeTeam, Inc.
